How to use LASCIVUS Decor

LASCIVUS Decor is pressed pigment for model kit, PVC figure ,and Doll. Apply the powder on skin of the figure with included brush to give it dazzling texture and shade. The fine pigment fits with scale and blends in figure's skin nicely.

Light coating with highlight color to enhance the glow of skin.

Layer of "Shade Color' represents shadow.

Apply LASCIVUS Decor on the model directly or paint base skin tone with LASCIVUS color first. A coat of matte varnish helps fixation of the pigments.

The powder would stick well by painting flat clear like B530 first.

Cheek color can be used as cheek, eye shadow, and more.

Shade Color② can represent various shade and tone of skin color.

Paint the shade color with brush or chip on the part where the shadow would cast.

This represents glow of the skin.

Shade Color:

Each pallet includes two shade color that can be used to replesent the shadow, eyeshadow, and daker tone.

Cheek Color:

It brings color and interest to cheek and other parts.

This product is not cosmetics for human.

Blur the powder with the clean chip or finger to smooth the effect.

CLC101

Marshmallow type ¥1,650(tax in)

Apply the highlight color on the raised part to enhance glow of the skin.

It would be easier to use sponge puff when you paint large figure.

CLC102

Peach type

¥1,650(tax in)

You can change the tone of skin by applying blue or yellow shade color² to inside of the arm or leg.

Apply the cheek color on cheek, elbow, knee to add interest.

CLCTU3

Milk tea type

¥1,650(tax in)

The powder may fade by touching the surface. Applying clear varnish would fix the powder onto the model. The powder may drift if you paint clear too much.
